IMPORTANT EPA RECALL NOTICE

January 22, 2016

This notice applies to your outboard motor (serial number XXXX-XXXXXXX).

Dear Yamaha Owner:

Campaign 990102

Yamaha Motor Corporation, U.S.A. has been informed that a defect (nonconformity) which relates to evaporative emission regulations exists that some primer pump (bulb) assemblies that were included in the remote oil tank kits for two-stroke VZ150TLR / VZ175TLR / Z200TXR / LZ200TXR / VZ200TLR / VZ250TLR / VZ300TLR outboard motor models, and also available separately for rigging. Our records indicate that you own the affected outboard motor shown above.

The reason for this recall:

The remote oil tank kit's primer pump may not comply with 2011 EPA (Environmental Protection Agency) low-permeation regulations. These regulations were established to protect the public health or welfare from the dangers of air pollution.

What Yamaha and your dealer will do:

To correct this nonconformity, your authorized Yamaha dealer will inspect the primer pump and, if necessary, replace it along with the fuel hose and hose clamp using EPA-compliant components. This is not a safety-related recall.

What you should do now:

The inspection takes about 30 minutes to do but be aware that your Yamaha dealer may need to keep your motor for longer depending upon their current service schedule. If the primer pump and hose must be replaced, the procedure will take about 30 minutes longer once the dealer has the new parts in stock. **There will be no charge to you for this procedure.**

Please call your Yamaha dealer to make a service appointment to take in your boat on which the remote tank and motor is mounted to have this procedure performed. At that same time, you can find out how long they expect to keep your boat for this service. Remember to take this letter with you when you take in your boat and motor.

In order to ensure your full protection under the emission warranty provisions, it is recommended that you have your motor serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your motor.

If you are unable to return to the Yamaha dealer who sold you the outboard motor, this service will be performed by any authorized Yamaha Outboard dealer. For the name of a dealer near you, call 1-800-88-YAMAHA or visit the Yamaha web site at www.yamahaoutboards.com.

If you have had this repair performed before you received this letter, you may be entitled to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this repair. For more information, contact Yamaha Outboard Customer Relations at 1-866-894-1626.

If you need help:

If, after contacting your dealership, you have questions or concerns which the dealership is unable to answer, please write to:

Yamaha Motor Corporation, U.S.A.
Outboard Customer Relations Department
1270 Chastain Road
Kennesaw, GA 30144
Or call: 1-866-894-1626

If you no longer own this Yamaha:

If you have sold your outboard motor to another party, please call us toll-free at 1-800-962-7926 with the name and address of the new owner, along with the serial number shown to the right of your name on the address label above.

We're sorry to cause you any inconvenience, but we are sincerely concerned about this important emission regulation and continued satisfaction with our products. Thank you for giving your attention to this important matter.

Sincerely,
Yamaha Marine Service
Yamaha Motor Corporation, U.S.A.
